

Upright Vacuum Cleaner - BT 450

BT450 is heavy-duty and reliable upright vacuum cleaner, with a cylindrical rotating brush, designed to vacuum carpet deeply. Two sizes are available, for cleaning large or smaller areas.

The action of the rotating brush allows to remove dust, sand and solid dirt residuals from the carpet fibres.

It is very important to use an upright vacuum cleaner with rotating brush on a daily basis, to maintain carpet in better conditions and extend the life time of the carpet as well. It is also an essential operation before carpet cleaning.

All Pictures shown are for Illustration purpose only. Standard Accessories may vary.

Advantages of BT450

- The low profile and the ability to continue to operate when the handle is completely flat to the floor allows the BT450 to clean under furniture.
- Superior edge cleaning allows for deep carpet cleaning along the baseboard.
- The on-board wand and stretch hose (4:1) provide for quick and easy cleaning of hard to reach areas.
- The power heads have a multilevel manual adjustment (4 positions) to give superior results on all levels of flooring.
- The brush motor is electronically protected against overload and the LED light system assures the that the setting is correct.
- Easy-to-replace brush strips. There is no need of replacing the entire roller system when the brush strips are worn out.
- The optional HEPA H13 filter provides the cleanest air quality available.
