

Compact Housekeeping Trolley Nukeeper - NKC 10

NCK-10AT 200mm Castor

Housekeeping Trolley

The NuKeeper Compact 10 is a genuine exercise in downsizing from the outside without downsizing from the inside, to provide a full 10 room capacity both in terms of clean linen and towels but, equally, with two fullcapacity 100-litre laundry bag extensions as standard. Each and every detail within the design has been as a result of user experience, whilst the integrity of the whole module is second to none in line with the full NuKeeper range. First and foremost the whole unit is based on our rugged Structofoam chassis, embellished with our rotating buffers to each corner and rub rails from end to end – both sides. The standard chassis is equipped with 100mm heavy duty castors.

The four door storage module is unique incorporating our full magnetic door system, no locks, no catches and easy access from both sides at all times. Take what you want and literally slam the door shut, couldn't be easier or quicker or tidier looking.

In the top of the trolley you have storage trays for all those inevitable little bits and pieces. When doors and lids are closed you have a truly compact, clean and tidy looking professional housekeeper unit.

Model No	Bags	Castors	Size
NKC10	2 x 100 L	4 x 100 mm	1360 x 665 x 1115 mm
NKC10AT	2 x 100 L	4 x 200 mm	1360 x 665 x 1215 mm
