

Twintec Battery Scrubber Drier - TGB 4045

Operating Switches

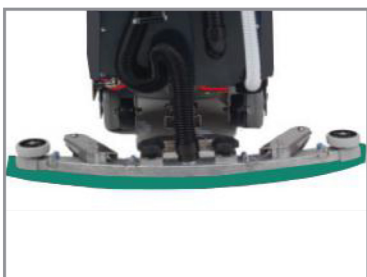

Folding / Adjustable Handle

Easy Tank - Filling Access

Planetary Gear Box

Wet Pick-Up Squeegee

The **TGB 4045** has a number of cost saving variations introduced into the specification without loss of performance or operating life. The LoLine chassis is manufactured in **nutex epoxy powder coated steel** and the wet pick up floor tool is made out of Structofoam body which is rugged and strong. The machine is so simple to use, simple to fill, simple to empty, simple to move, simple to charge, simple to transport and simple to service and it's all this simplicity that produces superb cost effective results.

The machine TTB 4055 is bristling with unique features but to these have been added our new, easily adjustable brush pressure adjustment system that allows power head performance to be varied to suit different floor conditions and requirements. This machine comes with Stainless steel chassis and aluminium floor tool.

TGB 4045

HOURLY PERFORMANCE

1800 M²/H
