

## Twintec Cable Scrubber Drier - TT 6650 G

Simple to Use Operator Handle

Filter System

Easy Tank Filling Access

Brush in Transit Mode

Wet Pick-Up Squeegee

The **TT 6650 G** cable machine is a genuine workhorse providing a truly cost effective answer to big area floor maintenance.

First and foremost the user will find the TT 6650 G as easy to use as our smaller machines with the control and operation systems of exactly the same specification. It handles like a dream.

Big capacity polyform tanks provide a full 60-litre capacity to match the exceptionally stable 65cm single brush scrubbing head, complimented by an over sized fully floating 970mm polyurethane, semi-parabolic collection nozzle.

The motor and power transmission design is one of the best; well and truly time tested over the years and the vacuum motor system is nothing less than our superb Twin flo' bypass unit. You really do end up with clean, dry floors.

The whole machine is constructed on a full stainless steel chassis, simply nothing to rust, and this in turn, is running on heavy duty non-marking polyurethane wheels.

If it's big areas, big power and big performance that is needed - the TT 6650 G will not disappoint you!

### HOURLY PERFORMANCE

2600 M<sup>2</sup>/H
