

Eveline

Eveline is the Santoemma patented system for deep clean and completely sanitize all small furnished spaces, including kitchens and restrooms.

This is the ideal solution for cleaning contractors and for anyone who wants to equip themselves with a professional machine, in order to maintain high levels of hygiene in their own working or private environments.

It is ideal for 100-200 square meters furnished places, with areas of different type: restrooms, working areas, offices, walkways, store-rooms, changing rooms, kitchens, café and restoration areas.

Eveline allows to perfectly clean and sanitize vertical surfaces, sanitary fixtures and hard floor.

The cleaning and sanitizing process takes place in four stages:

- Spraying of chemical solution on vertical surfaces and sanitary fixtures
- Chemical action against dirt and bacteria
- Rinsing vertical surfaces and sanitary fixtures with clean water
- Rinsing the floor with the injection-extraction system

EVELINE

Technical information

Recovery Tank Capacity	Clean Water Tank Capacity	Vacuum Motor	Power	Maximum waterlift	Maximum Air-flow	Pump with bypass	Maximum pressure	Maximum Water-flow	Cable Length
14 litres	220/240V	2 Stages	1000 W	2200 mm H2O	50 l/sec.	Vibrating	5 Bar	2,5 l/min	10 m
