

High Speed Burnishing Machine – CHB 1500

Mains Plug

Height Adjustable wheel

Cable Secure

The Burnishing machine is unique in many respects and adjusts the height to varying floor conditions. A polishing machine makes a rough, non-reflective, surface into a smooth, highly light reflective (glossy) surface. Especially suited for high-speed buffing/burnishing. Moves with a pad at high rotational speeds making the process highly effective and efficient.

This machine will also be very well received in many congested applications as its functional characteristics are totally neutral allowing operation and control even in the most confined of locations.

Technical Specification

Model No.	Voltage	Motor	Brush Width	Main Cord	Brush Speed	Weight	Dimensions (L x W x H)
CHB 1500	230 V AC 50 Hz	1500 W	500 mm	12 m	1500 RPM	55 Kgs	1210 x 710 x 540 mm
