

Single Bucket Mop Wringer Trolley – C 118 A

Mop Wringer

**Sturdy Non Marking
Castors**

For smaller operations using too large a bucket can cause unnecessary wastage of water and cleaning solution. The C 118A is a single bucket wringer trolley that is ideal to be used in washrooms, guest floors and other low traffic areas; or for frequency and timed cleaning operations. The added on feature of a detachable separator can help keep the cleaning solution and dirty water separate. The wringer trolley can hold up to 10 litres each of clean and dirty water and the non-marking castors make it easy to manoeuvre during the cleaning operation.
