

Road Ride on Sweeper – CRS 1814

Simple to Use
Operator Handle

2 Side Brushes as
Standard

Strong Anti Slip Wheels

Roof Type Driver Cabin

The CRS 1814, is a high performance, low maintenance cost machine with remarkable sweeping effect. The vacuum cleaning system with a long filter element assists in picking up the dust efficiently. The machine has a master switch to control forward and backward movements. A small turning radius makes the equipment flexible and easy to operate. Wheeled hopper makes it convenient to empty the hopper. State of the art water sprinkler system on Side brushes to ensure best in class cleaning results.

Features:

- High performance, low maintenance cost, and remarkable sweeping effect.
- Vacuum cleaning system with a long filter element assists in picking up the dust efficiently.
- Master switch to control the forward and backward movement.
- A small turning radius makes the equipment flexible and easy to operate.
- Wheeled hopper makes it convenient to empty the hopper.
- State of the art water sprinkler system on Side brushes to ensure best in class cleaning results.
