

Scrubbers & Polishers – HFT 1530

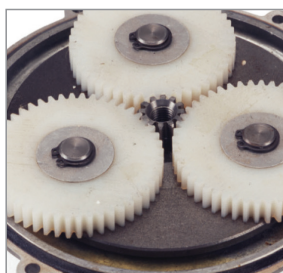

Simple To Use
Operator Handle

Hi-Lo Switch

Extra Large Brush

Heavy Duty Gear box

When it comes to large areas of floor maintenance or restoration there is no substitute for both size and weight.

The HFT 1530 is a dual speed machine with 150 & 300 rpm respectively. The Nuspeed series is now equipped as standard with performance enhancing "A.T.C.", Automatic Torque Control. A unique system that monitors operation and boosts torque, as required, to provide consistent performance under varying load conditions.

The 'snap-on' 10 kg standard weight can be easily removed, and replaced as required to suit various applications.

Technical Specification

Model No.	Power	Motor	Pad	Brush Width	Vacuum	Brush Speed	Range	Weight	Dimensions (L x W x H)
