

High Speed Burnishing Machine – NRU 1500

Powerful Motor

This super-speed floor polisher runs at 1500 rpm and has a large working width which makes it ideal for floor polishing in any industry. All functions are controlled from the operator handle with an in-built safety grip for easy maneuverability. Maintenance-free single phase – a synchronous motor gives long life and reduces costs. Double insulation and splash guard offers additional safety to the operator.

The dustrol vacuum system can easily be retrofitted providing an exceptional vacuuming/polishing combination resulting in not only highly polished but also fully vacuumed floors doing two jobs.

Unique Folding System

Backpack Optional

Front Support Wheel
