

Foamtec – 15

Foaming

Chemical Action

Rinsing

Vacuuming

Foamtec 15 are the smallest and medium size models respectively in the range of machines working with Santoemma patented Foamtec system. These machines allow complete cleaning and sanitizing public restrooms by spraying foam, rinsing and vacuuming.

The cleaning process is carried out through four stages:

- Spraying of foam on all the surfaces to be, cleaned (walls, sanitary fixtures, showers and panes).
- Foam chemical action.
- Rinsing with fresh water.
- Vacuuming of residual water from floor.

Technical Specification

Model No.	Power	Vacuum Motor	Automatic Filling System	Tank Construction	Clean Water Capacity	Dirty Water Capacity	Maximum Pressure	Maximum Water-Flow	Pump with Bypass	
Foamtec 15	1000 W	2 Stages	Yes	High Density Polyethylene	14 Ltrs	14 Ltrs	9 Bar	2 Ltrs/Min	1 Membrane	
Maximum Waterlift	Maximum Air-flow	Compressor	Water Consumption	Chemical Consumption	Chemical Dilution	Cable Length	Weight (Machine Body)	Weight (Packaged Machine)	Package Dimensions	Dimensions (L x W x H)
2200 mm H2O	50 Ltrs/Sec.	350 W	14 Ltrs	250 Grams	Pre-Set Around 4%	10 Mtrs	40 Kgs	55 Kgs	480 x 800 x 1000 mm	380 x 700 x 860 mm
