

Backpack Vacuum Cleaner – RSAV 130 (For Aviation Industry)

Comfortable Harness

Standard Accessories

The **RSAV 130**, is specially designed to run on the 400Hz power supply present in most aircrafts. It is especially practical in aircrafts as it is easy to manoeuvre and leaves no trailing, making it quicker and more efficient to clean the large area within an aircraft.

A favourite in many countries this handy machine has been designed for user comfort, convenience and safety, not to mention great performance by giving faster turn around times during the cleaning of aircrafts.
