

Upholstery Extraction Cleaner – CU 310

Handle & Spray Trigger

Control Switch Panel

Vacuum Hose Connection

Castor Wheels

When carpets, upholstery, sofas, chairs, vehicle interiors, and fabric surfaces require deep cleaning and fast drying, the **CU 310** Upholstery Extraction Cleaner delivers powerful extraction performance with ease. Designed for professional cleaning applications, this versatile machine combines spraying, washing, and extraction in a single operation to remove dirt, stains, and embedded contaminants effectively.

Equipped with a high-performance vacuum motor, powerful water pump, and separate clean water tank, the **CU 310** ensures thorough cleaning while minimizing moisture retention for quicker drying. Its compact design, durable stainless-steel body, and easy maneuverability make it ideal for hotels, offices, conference halls, restaurants, cinemas, healthcare facilities, and commercial cleaning operations.

Whether tackling routine maintenance or intensive spot cleaning, the **CU 310** provides reliability, efficiency, and professional-grade results every time.

Clean Deeper. Dry Faster. Perform Better.

Features:

- Spray, Wash & Extract in One Operation for efficient deep cleaning and faster results.
- High-Performance Extraction System with 230 mbar suction and 1000W vacuum motor for superior moisture recovery.
- High-Pressure Spray Pump (87 PSI) effectively loosens dirt, stains, and embedded contaminants.
- 10L Clean Water Tank enables uninterrupted cleaning for extended periods.
- Durable Stainless-Steel Construction ensures long-lasting performance in demanding environments.
- Compact & Maneuverable Design allows easy operation and transportation across various locations.
- Specialized Upholstery Cleaning Tool ideal for carpets, sofas, chairs, vehicle interiors and fabric surfaces.
- Quick-Drying Performance reduces downtime through efficient water recovery and extraction.

Technical Specification

Model No.	Capacity	Power	Voltage	Clean Water Capacity	Power of Water Pump	Power of vacuum Motor	Height	Tank Diameter
CU 310	30 L	1034 W	220V - 240V	10 Ltrs	34 W	1000 W	83 Cm	Φ335 mm
Air Flow	Vacuum Suction	Cable Length	Hose Diameter	Net Weight	Gross Weight	Hose Gross Weight	Pressures	Dimensions (L x W x H)
53 L/S	230 Mbar	7 Mtrs	Φ40 mm	15.8 Kg	17.6 Kg	5.2 Kg	87 PSI	455 x 410 x 845 mm
